JAY NOVACEK SUCCESS STORY

Everyone who knows Jay will tell you that his fantastic athletic career was not really surprising because he is dedicated to excellence and hard work in every aspect of his life. An All American football player at Wyoming University, he was also the record holder in the decathlon, the pole vault, finished fifth in the decathlon at the 1994 U.S. Olympic Trials and averaged 22.5 yards per catch as a senior. Extra work has always paid off for Jay. During the six seasons Jay played for the Dallas Cowboys, no other NFL tight end caught more passes (339) and only two had more yards receiving. During that time, he made five consecutive trips to the Pro Bowl, four as the NFL's starting tight end and was named the 1993 NFL Alumni Tight End of the Year. He is the only tight end in Cowboy history to make five consecutive appearances at the Pro Bowl. Despite a midseason injury, Jay had a career high 68 catches in 1992 and paced all NFL tight ends for the second time in three seasons. In Super Bowl XXVII Jay scored the Cowboys' first touchdown and went on to lead the team in catches with seven. With his 339 career catches as a Cowboy, Jay stands sixth on the club's alltime reception list. Nicknamed "Paycheck" by teammates because "when you threw it to Novacek, you could take it to the bank!" "We were able to do things with Jay that I don't think many other teams even thought of trying with their tight ends," said Cowboys quarterback Troy Aikman. "I can't imagine a tight end who did more for his offense than Jay did for us." In 1991, Jay won the team event and had the highest individual score in the NFL National Cutting Horse Association Super Stakes. He followed that with a third place showing in the 1992 competition and won the 1994 title. **Success is more than just a word to Jay Novacek. Success is a way of life.**

- **Outstanding college and high school coaches** (approximately a 10:1 ratio).
- **Daily instruction, lectures and demonstrations by Jay Novacek and/or members of the Dallas Cowboys!** Group and team discounts available!
- **Outstanding recruiting and scholarship opportunities!** The entire coaching staff for high school age campers is made up of college coaches recruiting for their schools.
- **Players ages 15-18 are eligible for the exclusive "TOP 30" Club.** Over 1,500 college coaches will receive a detailed information packet on each player selected to the "TOP 30" Club. In addition, each member will receive an award for this honor and be placed on the **Jay Novacek "TOP 30" Club Wall of Fame!**
- **Scholarships are plentiful and each year several Jay Novacek campers go on to play college football.** If you want to play at the college level, the opportunity to meet and work with the college coaches on our staff is priceless.
- **The Jay Novacek Combine Test** is similar to the NFL scouting combine and will be offered to all players ages 13-18. The test will grade each player for speed, quickness and strength.
- **Autographs!** This is not an "autograph camp" just a great football camp! But if you want autographs while you are at camp, Jay Novacek and/or members of the Dallas Cowboys will be available for autographs during the entire camp. We will suggest holding an organized autograph session when Dallas Cowboys are in camp and they have always been very cooperative. If a player is unavailable for autographs, we should respect their wishes and appreciate the NFL player attending and instructing at the camp. We cannot guarantee a camper will receive every player's autograph because each player's schedule is unique.

Earn \$50 Worth of FREE Football Equipment From Football America For Yourself or Your Football Team!

For each friend or teammate you sign up for camp, you will earn \$50.00 worth of FREE football equipment from Football America (www.footballamerica.com)! It is as simple as that! If your team wants the FREE football equipment, you must put your team or organization's name on each application before they mail or call it in. (This offer cannot be used with any other camp discount or free football or free helmet offer. There will be a charge for shipping.)

Attend Camp Free

The plan is simple and straightforward. Each year we spend thousands of dollars in newspapers to let the community know about the camp. We would rather give you the "advertising money" in the form of a tuition discount. Simply encourage your team and friends to sign up for camp and your camp tuition fee will go down, down, down each time a friend sign's up. It's as simple as that! Call 301-575-9400 for as many brochures as you feel you will need today. **For the first friend you sign up, you will receive a \$25 discount; 2nd friend - another \$30 discount; 3rd - \$35; 4th, 5th, & 6th - \$40 each; 7th, 8th, & 9th - \$45 each; 10th or more - \$50 each (sign up 12 friends and your total discount will be \$495.00 off the tuition.)** Discounts are applicable towards camp tuition only. Your friends must give your name when they sign up by phone or your name must be on their applications when they mail or fax it in. **No exceptions!** Applications DO NOT need to be turned in together. To receive a free autograph football (instead of the discount - you cannot take both), check the "Free Football" box on your application.

Discount Rules

The "Former Camper Discount" is the only discount you may combine with any other tuition discount. Campers will be allowed to use only the largest of any tuition discount they earn. Example: If you earn \$125.00 through the "Attend Camp Free" program, you cannot add this to a "Team and Group Discount" or a "Family Discount," (but you may still use your "Former Camper Discount.")

“TOP 30” CLUB

(High School Players Only Ages 15-18)

The “TOP 30” CLUB is an exclusive club made up of the top 30 high school football players in each camp. These players will be selected throughout the camp by the Jay Novacek college coaches that coach the high school athletes. (The entire coaching staff for high school age players is made up of college coaches.) **A detailed information packet on each member of the “TOP 30” CLUB will be mailed to over 1500 college football coaches to help each player receive recognition at the college level.** This unique service is very respected by the college coaches. It has enabled hundreds of players to continue their football career and several have received scholarships. The goal of the Jay Novacek Football Camps is to see that every high school age player receives intense instruction and top competition throughout the camp under the watchful eye of top college coaches from throughout the USA. If you would like to play at the college level, this will be an excellent opportunity to receive the best instruction available and be seen by an outstanding lineup of college coaches.

Jay Novacek Combine Test

The Jay Novacek Combine Test will be offered to all players ages 13-18. The test will grade players for speed, quickness and strength. The evaluation is similar to that of the NFL scouting combine, but is scaled down for the high school athlete. **Test results of the players who are selected to the “TOP 30” Club from each camp will be mailed to over 1500 college football coaches.** Selection to the “TOP 30” Club will help each member gain greater exposure and help each player in the college

Properly Matching Up Players In Camp

The size of the Jay Novacek Football Camps allows our staff to separate players by age, ability, size, weight, experience and aggressiveness. It is difficult or impossible to do this in a smaller football camp. When smaller camps do not have the correct number of athletes, they are forced to match up players that should not face each other. **When players are not matched up properly, they will experience frustration, failure, loss of confidence, and possible injury.** The Jay Novacek Football Camp has a very adequate number of players at each age level to not only provide proper match-ups, but to also challenge players and provide a safe learning environment during camp. Jay's outstanding coaching staff and learning environment has developed a national reputation for being the best high school and middle school football camp in the USA!

Ages 7-10 — Beginners* and experienced players

The high school level coaching staff and pro's feel they have a great responsibility to this age group. The 10 and under group is very special and will receive personalized attention and training. Learning proper technique at this age is very important, but our staff never forgets “football is a game”, making sure each practice is fun. Our veteran coaching staff and pro's will step it up a notch each day with more advanced technique training. *All campers age 7 must have a father or male guardian attend camp with them as a volunteer counselor. We will need to place some of the “7 year old” volunteer counselors in a section of a dorm with older campers and their 7 year old son must stay with them.*

Ages 11-12 — Beginners* and experienced players

While still making each practice fun, our coaching staff will step it up a notch for this age group with more advanced technique training on both offense and defense. We take pride in the number of 11-12 year old players we have helped to make and contribute to their youth league or school team. Our high school/college level coaching staff and pro's will intensify the instruction in all phases of the game with positive, enthusiastic instruction and more advanced technique training.

Middle School and Jr. High Level— Beginners* and experienced players

Our college level coaching staff's goal for this age group is to prepare each player for his school team! If you have never played football before or if you are an advanced player, we know how to make you a better football player! Each player will be put through the Jay Novacek Combine Test free of charge. This test is similar to that of the NFL Scouting Combine, but is scaled down for the younger athlete. Each player will receive a copy of the results of their test. The instruction will intensify in all phases of the game as the week goes on. Each player will receive more advanced technique training each day of camp. Each player will return to their team a much improved football player!

High School Level — Beginners* and experienced players

Simply put, our college level coaching staffs goal is to help each high school player attain their football goals! The Jay Novacek Football Camp is considered to be the finest in the nation! We know how to make you a better football player! We will do everything in our power to help anyone from camp obtain a college scholarship or play at the college level. Each high school player will be put through the Jay Novacek Combine Test free of charge. This test is similar to that of the NFL Scouting Combine, but is scaled down for the younger athlete. Each player will receive a copy of the test results. Players selected to the “TOP 30” Club (ages 15-18 only) will have their evaluations forwarded to over 1500 college football coaches nationwide. “TOP 30” Club members will also receive an award and have their names placed on the Jay Novacek Football Camps Wall of Fame!

**If you have never played on a organized football team, the Jay Novacek Football Camp is a great opportunity to “give it a try”! Marty Kuser found out you can learn to play football at any age. Marty played soccer through the 10th grade before attending football camp. He attended Wake Forest University on a full scholarship to play football.*

Specialty Clinics

WHEN: Clinic attendees must report for clinic and camp registration between 8:00 a.m. and 9:00 a.m. the first day of the camp.

WHERE: This Specialty Clinics will take place at University of North Texas, the morning of July 5th.

INSTRUCTORS: Sports International brings in over 500 college and high school coaches to work our football camps each summer. All clinics will be taught by skilled coaches who have achieved measures of greatness in these areas either as players, coaches or both.

COST: Enrollment will be limited! Each Specialty Clinic is \$110 total clinic tuition for campers; \$150 for non-campers and is non-refundable. This must be paid in full when you register for the clinic. The clinic registration fee includes early arrival to camp, lunch and the Specialty Clinic. Cancellation insurance for camp costs \$8.

LINEMAN, LINEBACKER, CORNERBACK, SAFETY AND DEFENSIVE ENDS CLINIC: This clinic is designed to give each student athlete an opportunity to receive concentrated work in the areas of skill and coordinated movement. This will aid each athlete in developing the ability to perform at the peak of his potential in the trenches, where all games are decided. Not only are these the most unsung positions on the field, but they also contribute the most to the success or failure of every game. Great demands are placed on these positions. Skilled coaches will teach offensive/defensive linemen and linebackers exclusive skills and techniques.

QUARTERBACK, WIDE RECEIVER, RUNNING BACK AND TIGHT END CLINIC: These are the most skilled positions in football! They demand a great deal of discipline and correct repetition in perfecting the skill and techniques necessary to perform at these positions. In most cases, fall team practice cannot devote the individualized attention and concentration in these areas. This specialty clinic offers players an opportunity to develop their skills and learn the fundamental techniques of the quarterback, wide receiver, running back and tight end positions. Our coaching staff's objective is to develop each player to his fullest potential and to teach the fundamentals.

OUR GOAL IS TO TEACH, AND TEACH AND TEACH DURING THESE CLINICS! By developing supportive relationships with each individual player and parent, our coaching staff can be a more productive resource in the development of each player's career. Their service does not need to stop once the clinic is over. If needed, they can make themselves available, year-around, for advice and support.

His parents asked Charles, "How was camp?" Charles said, "I had fun, but Dad really had fun." This couldn't have been more true. I look forward to being a counselor at camp again next year. —Steve Hebbler, Plano, Texas
